

PROGRAMME

Driving Assistance Systems and their Impact on Training and Testing

Bratislava, 1-2 December 2011

On 1 and 2 December, CIECA with the kind support of DEKRA will be holding a Members' Seminar on Driving Assistance Systems (DAS) and their impact on training and testing. This seminar aims at:

- providing a first evaluation of new Driving Assistance Systems (DAS) and their impact on training and testing
- allowing for an informed discussion about automatic transmissions, especially on heavy vehicles and the potential impact on testing and licensing.

Thursday, 1 December 2011
